Full Stack Developer

Erwan LEBLANC

Nantes, France · github.com/EL-R1

PROFILE

Full Stack Developer for 4 years, I have designed, implemented, and strategized projects from A to Z, while also contributing to the improvement of existing projects. I am passionate about researching all kinds of information.

SKILLS

- **Development:** C# (.NET Core 7/8), TypeScript, Vue.js, React, Python, Angular, PHP, JavaScript, SQL
- **Infrastructure:** Docker, Kubernetes, Linux, Windows, Bash
- **Cloud & DevOps:** Azure, Azure DevOps, Terraform (IaC), CI/CD, Git
- **Architecture & Quality:** Design Patterns (MVC, DDD), N-tier Architecture, Clean Code, Unit Testing (xUnit, Moq), E2E Testing (Playwright)
- **Tools:** Wireshark, Burp Suite, VMWare, VirtualBox, Visual Studio, VS Code, Notion
- **Methods:** Agile / Scrum, Planning, Project Management, V-Model
- **Languages:** English (professional)

PROFESSIONAL EXPERIENCE

Independent Development — Technical Projects

2026 – Present

Design and administration of a self-hosted infrastructure and automation tooling.

Achievements:

- Deployed and administered a NAS server: stack of containerized microservices (Home Assistant, Immich, VPN), automated backups, monitoring
- Developed Bash/Python automation scripts: tech watch, backups, data retrieval via GitHub API
- Versioned and documented projects on GitHub (github.com/EL-R1)
- Strengthened cybersecurity: Root-Me 2040 pts, CTF, access hardening (VPN, firewall, secrets management)

Technologies: Docker, Linux, Bash, Python, Git, VPN, Security

Full Stack Developer — KLEE Group

2024 – 2025 · Klépierre client

Development and maintenance of a web application like a social network for a company (Klépierre client).

Achievements:

- Development of new frontend and backend features
- Corrective and evolutionary maintenance of the application
- Performance optimization and bug fixes
- Contribution to improving user experience
- Contribution to overall code quality: Clean Code, code reviews, best practices
- Unit testing (xUnit, Moq)

Technologies: C# (.NET Core 7/8), ASP.NET Core, Entity Framework (EF Core), React, TypeScript, SQL Server, Azure Repos

Software Engineer — MANITOU Group

2022 – 2024

Creation of UI/API/DB for a booking application. CI/CD setup. Creation of an automated test engine.

Achievements:

- Design and development of a WEB application from A to Z
- Creation of REST APIs with complete N-tier architecture (Helper, Mapper, Repository, Model)
- CI/CD setup with Azure DevOps
- Contribution to improving performance and security
- Automated E2E tests (Playwright) and unit tests (xUnit, Moq) to improve software quality
- Participation in technical architecture decisions
- Development of a complete booking application
- Implementation of a priority queue system
- SSO integration with OKTA
- CI/CD setup with Azure DevOps and Terraform
- Participation in technical architecture

Technologies: C# (.NET Core 7/8), ASP.NET Core, REST APIs, Entity Framework (EF Core), React, TypeScript, SQL Server, Terraform (IaC), Azure

Junior Developer / DevOps — Mafianumérique

2021 – 2022

Setup of development environments, versioning (Git), CI/CD Azure DevOps, maintenance and securing of internal website.

Achievements:

- Setup of several development environments (development, production)
- Implementation of a version management system (Git with Azure Repos)
- Creation and configuration of CI/CD pipelines via Azure DevOps
- Corrective and evolutionary maintenance of the internal website
- Securing of the login portal
- Encryption of user passwords in the database
- Improvement of internal functionalities
- Management of different world currencies

Technologies: PHP, HTML, SQL, Azure DevOps, Bootstrap

EDUCATION

Expert in Computer Science & Information Systems (RNCP lvl 7)
EPSI Nantes - Engineering School · 2024

CDA (Application Designer & Developer)
EPSI Nantes · 2022

VOLUNTEER WORK

International Workcamp — Animaje
2019 · Tunisia

International Workcamp — Animaje
2018 · La Chevrolière

Volunteer breakfast & cleaning — Animaje
2018 · Mégascène and Hellfest

INTERESTS

Cybersecurity (2040 pts Root-Me, CTF) · OSINT / Steganography · Media Restoration · Puzzle Games · Foosball, Billiards
